Introduction to Database Systems

Project Phase 1: Group Formation and Topic Selection

Assignment Date: 25/10/2024

Due Date: Tuesday, 29/10/2024 (12:30 pm)

Instructions

Only one member per group should submit the document. 1-2 group members are allowed per group. Read the following document carefully. You can propose multiple topics for your semester project. I will allocate you one of the selected topics. Make sure to describe your Project briefly within the document that you will be submitting.

Grading Criteria:

Your Project-Based Learning (PBL) assessment carries a total weight of 20%. Of this, 10% is allocated to the various phases of your project, which we will be progressing through together. The remaining 10% will be graded at my discretion. Please note that if you do not have your progress checked, you will receive a score of zero for that portion. Progress checks will only be conducted on the specified dates, and no exceptions will be made.

Project Overview

As part of the Database System course, students are required to work in groups for their upcoming project. This document outlines the requirements for Phase 1, where you will form groups and decide on a project topic.

Objectives

1. Form groups of 2 members each.
2. Select a project topic that aligns with the course objectives.

Group Formation

- Each group must consist of **2 members**.
- Students are encouraged to choose a partner from the same class.
- Groups must be formed by **29/10/204**.

Topic Selection

- Each group should select a topic relevant to the course material.
- Topics must be approved by the instructor. You can propose multiple topics.

- Please submit your chosen topic along with your group members' names.

Guidelines for Topic Selection

1. **Relevance:** Ensure the topic aligns with the course objectives and materials.
2. **Feasibility:** Consider the time and resources available to complete the project.
3. **Interest:** Choose a topic that interests both group members to enhance engagement.

Submission Instructions

- Submit your group members' names and chosen in hard form before the mentioned deadline. Negative marking in case of late submission.
- Include the following details in your submission:
 - Group Member 1 Name
 - Group Member 2 Name
 - Chosen Topic and its brief description.

Additional Notes

- If you have difficulty finding a partner, please inform the instructor by [27/10/2024] for assistance.
- Ensure open communication with your partner to facilitate a successful project.
